

# Sunny's Roadshow

Therapy Focus' mascot **Sunny the Sunflower** visits Perth metropolitan schools and various community events spreading the valuable message of inclusion and teaching children that it is our differences which make us special - and life much more interesting!

**For a donation, Sunny's Roadshow can visit your school!**

Sunny helps to teach children at a young age not to fear differences in others, but to celebrate everyone's unique abilities.

Accompanied by his helper, Sunny shares his message in a visually entertaining and interactive presentation as part of school assemblies or in the classroom.

Sunny is very popular with children and the five-minute presentation is an effective resource for schools in promoting the following **Curriculum Framework Links**:

- Self acceptance and respect of self
- Social and civic responsibility
- Compassion and care
- Equality
- Individual differences
- Respect and concern for others and their rights

**Spot Sunny out and about in the community!**

Sunny also makes regular community appearances at carnivals, expos, open days – even sporting matches, promoting Therapy Focus and the services we provide to children with disabilities. To find out more, visit our website:
